# PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1a.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

### SUMMARY

A military installation is located at the northwest edge of Vilnyus 2 kilometers (km) northwest of Alytus Army Barracks (Figure 1).

This small installation covers 35 acres and contains 1 multistory administration building, 4 multistory barracks, 6 support buildings, 1 storage building, 3 multistory possible storage buildings, 1 possible storage building under construction, an L-shaped unidentified building,

and an oval track with a field house (Figures 2 and 3).

missions of interpretable quality photography from

covered the area. Comparative analysis reveals that 3 storage buildings and the field house have been built since Ground scarring indicates that this installation is increasing in size.
